1 Firmux 1.9.0

Encryption Standards:

- OWE does not work with each client
- WPA1/2/3 Enterprise does not work
- WPA2 PMF forced mode is not working

IPv6:

- Only local network possible, no DHCPv6 or SLAAC

2 Firmux 1.9.2

Encryption Standards:

- WPA3 Enterprise
- WPA2/3 Enterprise

IEEE PHY mode:

- 2.4 GHz 802.11b/g/n shows wrong IE. Standard clients ignore this and connect normally.

IPv6:

- Only local network possible, no DHCPv6 or SLAAC

3 NRSW REST API-Controller

- If more than 8 profiles are activated discovery does not work anymore.
